

Improve business efficiencies by switching to an Epos solution

We have partnered with epos Now, Europe's most advanced, and fastest-growing, cloud-based point-of-sale vendors, in an exclusive tie-up creating the ultimate, seamless merchant solution.

ePosNow have two fantastic POS solutions to choose from; the POStoGo and the C15, both fully customisable for all your business needs. They include so many useful functions which will help streamline your business. You will have the functionality to create custom table plans, easily allow customers to split bills and even have the ability to select whether a customer is eating in or taking away. In addition, there are various ways to check stock availability, with integrated alerts when levels become low, and the various locations of certain stock items.
